

How to make my Snowman

By: Pete 21A

1. First, get a circle, outline size 1.
2. Next, draw the bottom circle about 2 inches long.
3. Then, draw the middle circle of the snowman about 1 and 1/2 inches.
4. After that, draw the head of the snowman about 1 and 1/4 inches with a white outline.
5. Next, make the background color bright red [# ff0000].
6. Then, make the arms brown pointing straight out[# 663300] with an outline size of 11, about 1 inch long with 3 fingers on each arm, one finger pointing down, one pointing sideways and one pointing up.
7. Click on the circle, the eyes black [#000000], both about 1 cm long and wide, with an outline size of 11.
8. The mouth has 6 dots, color black [#000000] in the shape of a smiley face, with an outline size of 8.
9. Then for the nose color it orange [#ff9900] in the shape of a rectangle right above the mouth. It's to the right a little bit.
10. Then put 3 buttons on the middle part of the snowman, and then put 7 buttons on the body of the snowman nearly touching each other, both in a straight line, with an outline size of 12, color black.
11. Make a scarf that has a background of **bright** yellow with purple [#6600ff] stripes and an outline size of 12 for the purple, and 21 for the yellow, draw the yellow first around the neck then hanging diagonally to the right, then for the purple stripes, draw the stripes going straight down, except when it's going diagonally then it would go diagonally with it.
12. Make a stocking cap that is blue with pink stripes with the cap leaning to the left with strings [at the end of the hat] that one is pointing sideways, one pointing down, and the other also pointing sideways. They are each about 1 cm long. For the pink stripes make them a straight line following the curving of the hat. The cap should be in the middle of the snowman's head. For the strings the pink stripe going straight on each of the strings.
